

Partner Agencies & Programs

United Way remains committed to making sure all contributions are effectively and responsibly utilized. Dedicated United Way volunteers are investing donor contributions in local programs that are working in five focus areas to nurture children, help and encourage youth success, strengthen families and neighborhoods, improve our community's health and assist people in crisis. Providing support to these programs is a fundamental part of a caring community.

Programs and funding amounts were selected based on a series of factors designed to ensure the greatest return on investment for the 37,000 donors who support the community through United Way. These factors include: 1) a program's ability to address United Way's community impact focus areas listed above; 2) program/agency finances and sustainability; 3) program results measurement and reporting; and 4) demonstration of community collaboration, innovation and best practices.

Helping People in Need Right Now

Nurturing CHILDREN: United Way funds continue to support early child care for at-risk children; services, education and therapy for children with developmental differences and delays; and parenting, family literacy and early literacy programs.
