WorkKeys® is a nationally recognized job skills assessment system that provides proven measurement of both applicants' and existing employees' abilities to perform to job requirements. You will hear from experts and area employers who are currently using WorkKeys and gain an understanding of the WorkKeys process and how it can benefit your company in the areas of:

- **Increasing qualifications of your applicant pool**
- **Improving productivity**
- **Reducing turnover.**

**Greenville Works** is leading a campaign to increase WorkKeys testing across a much broader segment of the community. This increase will help to provide a workforce with better preparation for job requirements and to provide employers with a defined method of measuring applicant and incumbent worker skills. A future benefit will be to help new and existing businesses in Greenville meet their workforce and business growth needs.
